On October 9, 2007, an application was filed by United Systems Access, Inc., (United) Kennebunk, Maine, to complete a transfer of control of American Fiber Network, Inc. (American), Washington, D.C. The transfer of control application was approved by the Commission on November 20, 2007 in Docket C-3868.

On April 4, 2008, the Commission received a letter from MobilePro Corporation (MobilePro), the parent company of American, that the proposed transfer of control has been terminated.

American is a local exchange carrier and interexchange carrier in Nebraska authorized to provide such services by Docket C-3726. American is a wholly-owned subsidiary of MobilePro. MobilePro is a Delaware corporation principally located in Ohio.

United is a Delaware corporation principally located in the state of Maine. United does not possess a certificate to provide telecommunication services in Nebraska.

Per the application filed on October 9, 2007, MobilePro and United were to have entered into an agreement to transfer control of American to United.

After granting approval for the transfer of control the deal was terminated prior to closing. American will remain a wholly-owned subsidiary of MobilePro and retain its authorization to provide local exchange and interexchange service in Nebraska originally granted in Docket C-3726. No change of control will occur.
