To Whom It May Concern:

The Boone County Sheriff's Office would like to submit comment on Application No. 911-019/PI-118.

As was described to me today, there are still two issues in discussion regarding the permanent method of PSAP / Wireless 911 funding, 1) allocation of funds quarterly or monthly and 2) allocation of funds as one payment or allocation of funds for individual services (i.e.: equipment & software maintenance and GIS Data maintenance.)

It is the comment of the Boone County Sheriff's Office that funds should be allocated as a total rather than an individual services basis and funding frequency preference is monthly and in advance rather than arrears.

Sincerely,

Sheryl Machacek
Communications Manager
Boone County Sheriff's Office
