

March 1, 2013

Mr. Steve Meradith
Executive Director
Nebraska Public Service Commission
1200 N Street, Suite 300
Lincoln, NE 68508

RE: In the Matter of the petition of the Nebraska Telecommunications Association for Investigation and Review of Processes and Procedures Regarding the Nebraska Universal Service Fund (NUSF 77); Nebraska Broadband Pilot Program Application for Glenwood Telecommunications, Inc.

Dear Mr. Meradith,

Pursuant to the procedure set out by the Nebraska Public Service Commission ("Commission") in NUSF 77 Progression Order No. 7, Glenwood Telecommunications, Inc. submits the attached application for year two of the Nebraska Broadband Pilot Program.

Please contact me with any questions or for additional information.

Regards,

Stanley Rouse

Nebraska Broadband Pilot Program
NUSF 77
Redacted Application of Glenwood Telecommunications, Inc.

- 1. A listing of all companies associated with the proposed broadband project (excluding vendors)**
 - a. Main point of contact for all companies.**

Glenwood Telecommunications, Inc. ("Glenwood") will provide the broadband coverage for all projects. Glenwood is a CLEC and subsidiary of Glenwood Telephone Membership Corporation, a rural incumbent local exchange.

Main Point of Contact is

Stanley Rouse
General Manager
Glenwood Telecommunications, Inc.
PO Box 357
510 West Gage Street
Blue Hill, NE 68930-0008
Phone: (402) 756-3131
manager@glenwoodtelco.net

- 2. A description of the proposed broadband project plan including download and upload speed capabilities**

Glenwood is excited to apply for an NUSF 77 grant. We are proposing the installation of fiber optics and wireless broadband equipment to the rural areas surrounding the communities of Nelson and Superior.

Customers in these rural areas do not have access to reliable broadband service to meet their needs. These areas mainly consist of rural farm families who are relying more and more on broadband to run their farming operations. Without reliable and adequate speeds in these areas, rural farmers are at a disadvantage. In a recent Farm and Rural Life Poll, 84% of farmers surveyed indicate they now use the Internet to get information on the weather, markets, general agricultural news, and crop production, and many do so on a regular basis.

Our wireless Internet project in Nelson and Superior would bring a reliable and affordable solution to these rural customers. In order to complete the project, we would install fiber optics to tower locations in Nelson and Superior. [REDACTED]

Customers can expect speeds ranging from 6 to 10 Mbps download and 1 to 4 Mbps upload.

3. A description of which areas are “unserved” or “underserved” in accordance with the Commission’s definition.

This project and communities listed above fall under the category of underserved, based upon the definition released by the Commission of 4Mbps downstream and 1Mbps upstream (“4/1”). These communities are served with DSL service, however this service does not meet the requirements of 4/1 service in the rural areas.

Nelson

The community of Nelson is approximately 10 miles from the nearest Glenwood fiber point. Nelson has approximately 131 rural households within a 5-mile radius of town.

Advertised speeds of DSL service are 3/1, 6/1, and 12/1. However, we know from experience that 12/1 and 6/1 are only available to those on a short line loop from the central office. This leaves the entire rural area underserved.

Customers living in rural Nelson are not able to get 4/1 service from DSL. Glenwood’s wireless Internet will exceed this requirement.

Superior

Superior has approximately 171 rural households within a 5-mile radius of town. The community of Superior is currently served with DSL and Cable Modem.

Glenwood plans to extend their fiber network, and wireless equipment will be placed on our existing tower to serve customers who cannot get the desired 4/1 speeds outlined by the Commission.

Advertised speeds of DSL service are 3/1, 6/1, and 12/1. We know from experience that 12/1 and 6/1 are only available to those on a short line loop from the central office. This leaves the entire rural area underserved.

Advertised speeds for Cable Modem service are 4/1, 7/1 and 10/1. Glenwood is the provider of this service. This product is only available to those living within the Superior city limits.

Customers living in rural Superior are not able to get 4/1 service from DSL or Cable Modem service. Glenwood’s wireless Internet will exceed this requirement.

- 4. An Electronic map of all geographic locations where broadband facilities would be deployed under the proposed project which shall include 2013 Census Block boundaries of service area, by project, along with a demonstration that the area is currently unserved or underserved**

Attachment A Redacted for Public Inspection

- 5. An estimate of the number of potential new broadband subscribers.**

Glenwood anticipates [REDACTED] potential Internet users living in the rural areas. All customers will receive access to broadband speeds that exceed the 4/1 standards set forth by the Commission.

- 6. A schedule for broadband deployment with commitment to complete the build-out within 24 months of approval of the application. The schedule should describe milestones in project completion increments of 25 percent, and the estimated date by which the milestones will be completed.**

See Attachment B

- 7. Proposed budget, showing total project costs, in electronic format, with a detailed breakdown of the cost elements and a depreciation schedule showing the life of the investment.**

Attachment C redacted for public inspection

- 8. Proposed Retail pricing including both monthly recurring costs and nonrecurring costs for the new broadband service(s) to be offered.**

Below is our proposed residential retail pricing.

[REDACTED]
[REDACTED]

[REDACTED]
[REDACTED]

- 9. A description of the applicant's commitment to offer broadband services to all households within the service area of the project for a minimum of five (5) years.**

Glenwood is committed to rural Nebraska and the communities we serve. We are committed to this project for several reasons and, if awarded the funding, we will provide service to this area for at least five years.

Glenwood has offered fixed wireless service to rural Nebraska since 2000. In that time we have built and operated one of the largest wireless broadband networks in the state of Nebraska. We brought broadband Internet service to customers, who to this day, would still not have access if it was not for our investment.

Glenwood is located in central Nebraska and most of our employees were born and raised here. We are committed to the state we live in and the communities we serve. We understand that without the latest technology, at affordable prices, the erosion of our rural population may continue to accelerate. Increasingly, if people do not have access to the latest technology, they will explore other areas to live and work. When people move away it hurts the local economy and rural Nebraska.

Our exceptional customer service and reputation for exceeding customer's expectations makes us a good candidate for a broadband grant. In a recent survey our customers gave a 97% satisfaction rating in overall customer service. This dedication means customers in rural Nebraska will continue to enjoy quality broadband speeds and exceptional customer service.

- 10. A description of the applicant's commitment to provide broadband data to the Commission and its vendors for the duration of the State Broadband Data and Development (SBDD) program so that this broadband coverage area can be depicted on the Commission's state broadband data inventory map and on the National Telecommunications and Information Administration's (NTIA's) national broadband map.**

Glenwood hereby commits to provide broadband data to the Commission and its vendors for the duration of the State Broadband Data and Development (SBDD) program.

- 11. A description of the applicant's financial qualifications, which may be filed on a confidential basis, to meet the commitments made in the application.**

Attachment D redacted for public inspection

- 12. If the applicant does not have a certificate of public convenience and necessity to provide telecommunications services in Nebraska, a demonstration of the applicant's financial, technical, and managerial competence.**

Glenwood holds a certificate of public convenience and necessity to provide telecommunications services in Nebraska, granted by the Commission on October 2, 2007, which can be found in Attachment E of this application.

13. A description of the applicant's financial match which will be used to meet the commitments made in the application. Applicant shall submit a proposed budget for the entire project cost.

Glenwood commits to fund at least [REDACTED], or 25%, of the project cost with current funds in place and requests grant funds for the remaining [REDACTED], or 75%. We also commit to providing project invoices as required. A confidential detailed cost estimate is provided in Attachment C.

14. An affidavit from the Applicant attesting to the truth and accuracy of all information included in the application.

Section 6 – Schedule for Broadband Deployment

The schedule on which Glenwood will deploy the proposed system is as follows:

Task	Duration	Completion
NUSF 77 Grant awarded	Day 0	
RFP for fiber installation to contractors	Day 5	5%
RFP for equipment to vendors	Day 5	10%
Award equipment RFP	Day 35	
Award fiber RFP	Day 65	15%
Equipment ordered	Day 80	20%
Equipment delivered	Day 180	25%
Fiber installation begins	Day 210	30%
Base Station installation begins	Day 210	40%
Fiber installed – T&A completed	Day 300	50%
Base Station installation completed	Day 300	65%
Base Station beta testing completed	Day 360	70%
Installation of customer premises equipment begins	Day 365	75%
Customer activation continues	Year 2	100%

The project can be operational and in service within the first year of application approval with customer premises equipment installation ongoing over the 2-year period.

LETTER OF NOTIFICATION

Dear Charles Hastings:

Receipt is hereby acknowledged of the application of Glenwood Telecommunications Incorporated for authority to operate as a Competitive Local Exchange Carrier of telecommunication services within the State of Nebraska.

This application was docketed under Application No. C-3853. Interested persons are hereby notified that protests to the application must be filed on or before September 27, 2007.

If a formal hearing is necessary to dispose of this matter, interested persons will be notified later of the time and place of such a hearing.

Please note that the Commission rules require that if the applicant is represented by legal counsel at a hearing on this application, that counsel must be admitted to practice in Nebraska or be accompanied by local Nebraska counsel.

Sincerely,

A handwritten signature in cursive script, appearing to read "Maurice Gene Hand".

SECRETARY'S RECORD, NEBRASKA PUBLIC SERVICE COMMISSION

BEFORE THE NEBRASKA PUBLIC SERVICE COMMISSION

In the Matter of the Application) Application No. C-3853
of Glenwood Telecommunications)
Inc., Blue Hill, for authority)
to operate as a Competitive)
Local Exchange Carrier of) GRANTED
telecommunications services)
within the State of Nebraska.)
Entered: October 2, 2007

BY THE COMMISSION:

By application filed August 23, 2007, Glenwood Telecommunications Inc., (Applicant), Blue Hill, seeks authority to provide Competitive Local Exchange telecommunications services throughout the State of Nebraska. Notice of the application was published in The Daily Record, Omaha, Nebraska, on August 27, 2007. No protests were filed; therefore, this application is processed pursuant to the Commission's Rule of Modified Procedure.

EVIDENCE

Applicant is a privately held Nebraska Corporation with headquarters in Blue Hill. Glenwood Telephone Membership Corporation is Applicant's sole shareholder. Applicant is authorized by the Secretary of State to operate in Nebraska as a corporation. In addition, no officer, director or shareholder having five percent or more of the Applicant's voting securities has been involved in a formal complaint or other investigatory or enforcement proceeding.

Applicant is a common carrier that provides wireline telephone service, wireless Internet service, digital subscriber line service, and community antenna television services in the State of Nebraska. Applicant seeks authority to provide switched and dedicated applications in the State of Nebraska. Applicant proposes to provide its services originating throughout the entire State of Nebraska. However, Applicant does not intend this Application to be construed as a bona fide request for interconnection with any carrier. Applicant has not applied for certification to provide telecommunication services in any state other than Nebraska.

In support of its managerial, technical and financial capabilities, Applicant submitted a description of its senior officer's management and telecommunications experience as well as financial statements. Applicant's general manager has over

23 years of experience in telecommunication operations and 11 years experience in the operation of Glenwood Telephone Membership Corporation. Applicant's proposed CLEC network will consist of diversely routed fiber backbone facilities which will be connected to the Applicant's Parent Company's current ILEC network. Applicant's financial statements were filed under seal. Applicant filed prepared financial statements for 2004, 2005 and 2006 as confidential Exhibit 4.

Applicant states that a grant of the proposed application will serve the public interest. Applicant's service will provide customers with a competitive choice, will promote lower prices, and provide more innovative services. Ultimately, competition will provide the stimulus for further economic development in the state of Nebraska.

Applicant has filed a tariff with the Commission as required by state statutes and the Commission's regulations.

O P I N I O N A N D F I N D I N G S

The Commission considers this application for authority in light of the following criteria and standards established in the Commission's telecommunications rules:

- (a) Whether the Applicant has provided the information required by the Commission;
- (b) Whether the Applicant has provided a performance bond, if required;
- (c) Whether the Applicant possesses adequate financial resources to provide the proposed service;
- (d) Whether the Applicant possesses adequate technical competence and resources to provide the proposed service;

- (e) Whether the Applicant possesses adequate managerial competence to provide the proposed service; and
- (f) Whether granting the Applicant a certificate preserves and advances universal service, protects the public safety and welfare, ensures the continued quality of telecommunications services, and safeguards the rights of consumers, pursuant to Section 253(b) of the Act.

Applicant has demonstrated that it meets the standards of financial, technical and managerial competence and all other criteria necessary to provide local exchange service in the State of Nebraska.

These opinions and findings carry no precedential value other than establishing minimum standards and criteria to apply when considering applications to provide local exchange service in the above-mentioned territories. All telecommunications carriers seeking such a certificate must demonstrate that they meet, at a minimum, the standards and criteria set forth herein.

Before the Applicant is allowed to provide local exchange service to its users, it must either:

- (a) Through negotiation or arbitration, reach an interconnection/resale agreement with the pertinent incumbent local exchange carrier and receive Commission approval of the interconnection/resale agreement; or
- (b) In the event a certified local exchange carrier provides a wholesale tariff, purchase rates from that tariff, file its own tariff and receive Commission approval of its tariff.

This order does not terminate, waive or in any manner diminish the exemptions and protections created by the Act for rural carriers, as defined by the Act. This order does not address the issue of the rural local exchange carrier exemption under the Act. Rural exemptions may be terminated, suspended or modified only as provided in Section 251(f) of the Act.

Prior to providing local exchange service in any area in the State of Nebraska, Applicant must file tariffs in accordance with the provisions of Section 002.21 of the Neb. Admin. R. & Regs. Title 291, Chapter 5.

SECRETARY'S RECORD, NEBRASKA PUBLIC SERVICE COMMISSION

Application No. C-3853

Page 4

As a provider of local exchange service in the State of Nebraska, Applicant would be subject to the same laws, rules and regulations, both federal and state (including any laws, rules or regulations regarding universal service, restrictions on joint marketing and quality of service), applicable to any other local exchange company except those obligations imposed on ILECs pursuant to Section 251(c) of the Act.

O R D E R

IT IS THEREFORE ORDERED by the Nebraska Public Service Commission that Application No. C-3853 be, and hereby is, granted as provided herein.

IT IS FURTHER ORDERED that the Applicant comply with Section 251(f)(1)(B) of the Telecommunications Act of 1996 and that the Applicant submit any bona fide request(s) for interconnection, services or network elements from a rural telephone company to the Commission for its approval.

IT IS FURTHER ORDERED that Applicant is obligated to abide by the same laws, rules and regulations, both federal and state (including any laws, rules or regulations regarding universal service, restrictions on joint marketing and quality of service), applicable to any other interexchange and local exchange carriers, except obligations imposed on incumbent local exchange carriers pursuant to Section 251(c) of the Act.

IT IS FURTHER ORDERED that, to the extent Applicant provides access line service as referenced in the Telecommunications Relay System Act, Neb. Rev. Stat. §§ 86-301 through 86-315 (Relay Act) and defined in Neb. Admin. R. & Reg. Title 291, Chapter 5 § 001.01B, the Applicant shall collect from its subscribers a surcharge (Relay Surcharge) pursuant to the relay act and the Commission's annual orders establishing the amount of the surcharge, and shall remit to the Commission the proceeds from the relay surcharge as provided by the relay act.

IT IS FURTHER ORDERED that the Applicant comply with all necessary statutes and Commission Rules and Regulations as they pertain to the Nebraska Universal Service Fund.

IT IS FURTHER ORDERED that Applicant shall file, in accordance with the applicable statutes, on or before April 30 of each year, an annual report with the Commission consisting of: (a) a copy of the ARMIS filed with the Federal Communications Commission if applicable; (b) a copy of any annual report to stockholders; and (c) a copy of the latest Form 10-K filed with the Securities and Exchange Commission. If such

SECRETARY'S RECORD, NEBRASKA PUBLIC SERVICE COMMISSION

Application No. C-3853

reports are unavailable, Applicant shall file a balance sheet and income statement for the previous year of operation, and for the State of Nebraska on a combined interstate-intrastate basis, the investment in the telephone plant and equipment located within the state, accumulated depreciation thereon, operating revenues, operating expenses and taxes.

IT IS FINALLY ORDERED that this Order be, and hereby is, made the Commission's official Certificate of Public Convenience and Necessity to the Applicant to provide local exchange telecommunications services in the State of Nebraska.

MADE AND ENTERED at Lincoln, Nebraska, this 2nd day of October, 2007.
