

CapTel[®] 2400i

CapTel[®]
Captioned Telephone

It will change the way you look at the phone.

Telephone calls can be challenging for people with hearing loss. The new CapTel 2400i makes it easy to enjoy phone conversations, confident you'll catch every word.

See everything a caller says — no more guessing.

- Shows word-for-word captions during your calls
- Large easy touch-screen display
- Powerful amplification — up to 40dB
- Traditional telephone keypad — for comfortable, familiar dialing

CapTel 2400i Captioned Telephone

CapTel 2400i shows you word-for-word captions of everything a caller says. No more guessing, no more frustration. Can't quite hear what they say? Read the captions!

Large, colorful tablet-style display with easy touch-screen control.

Built in answering machine records voice and captions of your messages.

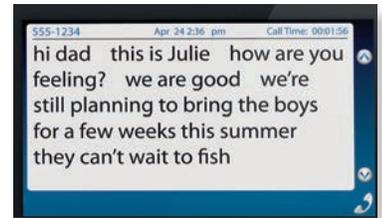

Standard telephone keypad buttons for familiar, comfortable dialing.

Powerful amplification. Up to 40dB gain — increases volume over handset.

Adjustable font sizes and colors for easy reading of captions.

Dial-by-picture capability to simplify dialing.

WiFi compatible.

Captions available in English or Spanish.

Requirements

- High speed Internet access (Ethernet or WiFi compatible). Depending on your setup, additional equipment such as a router may also be required.
- Telephone service — can be analog, digital cable, DSL, VoIP, FIOS. Not compatible with digital PBX systems often found in office settings unless an analog port is available.
- Standard electrical power.

Captioned Telephone Service is designed exclusively for people with hearing loss, and is paid for through a fund administered by the FCC.

Specifications subject to change.
CapTel is a registered trademark of Ultratec, Inc.

CapTel 2400i is the latest innovation from Ultratec, Inc. the leader in Captioned Telephone technology.

CapTel phones are also available in traditional models, for use with analog lines, high-speed Internet, or via apps for your mobile telephone.
